

# SafetyLink's® NEW TempLink 3000 Temporary Anchor

NEW

HEIGHT SAFETY SPECIALISTS

Fast • Compact • Portable • Lightweight  
Relocatable

The new *TEMPLINK 3000* is now available for all your temporary anchor needs! The design team at SafetyLink have been working overtime to create an updated unique design, building up from the very successful original TempLink. SafetyLink's patented *TEMPLINK 3000* is designed to absorb energy when a fall is arrested, minimising damage to the structure and reducing the risk of personal injury. This natural product evolution provides the end user with an array of uncomplicated and secure features.

- Durable stainless steel material.
- Lightweight compact unit, enabling easy manoeuvring to desired location.
- Multi-directional.
- Easy to secure tabs.
- Rated as a one person anchor, complies with AS/NZS 1891.4.
- Supplied with installation instructions and handy carry bag.

BE SURE TO INCLUDE ONE IN YOUR SAFETY KIT TODAY
